Exponential and Logarithmic Graphs Starter

On the same axes, sketch the graphs of the following using the given tables of values:

x	-3	-2	-1	0	1	2	3
$y = 2^x$							

x	-3	-2	-1	0	1	2	3
$y = 3^x$							

x	-3	-2	-1	0	1	2	3
$y = 1^x$							

x	-3	-2	-1	0	1	2	3
$y = \left(\frac{1}{2}\right)^x$
